

`NeoN::RuntimeSelectionFactory< FaceNormalGradientFactory< ValueType >, Parameters< const Executor &, const UnstructuredMesh &, const Input & > >`

A vertical inheritance diagram. A horizontal line at the top contains the text "NeoN::RuntimeSelectionFactory< FaceNormalGradientFactory< ValueType >, Parameters< const Executor &, const UnstructuredMesh &, const Input & > >". A vertical arrow points downwards from the end of this line to a second horizontal line at the bottom. This second line contains the text "NeoN::finiteVolume::cellCentred::FaceNormalGradientFactory<ValueType>".

`NeoN::finiteVolume::cellCentred::FaceNormalGradientFactory<ValueType>`
