

A horizontal bar chart illustrating the distribution of 1000 samples across 10 categories. The x-axis is labeled "Category" and the y-axis is labeled "Count". The distribution is highly skewed, with Category 1 having the highest frequency (approximately 180) and Categories 3 through 10 having significantly lower frequencies (between 50 and 100). A vertical black bar is located at the far right of the chart.
